CIF Southern Section Council Proposal Form

Proposal Number _____

Date _____

Submitted by:

Name John Turek

Committee _____

League Freeway

School Troy

Rule Change:

Affected Rule Number #3200.1/3219

Implementation Date Spring 2007

Abstract: (Add Supporting Documents)

Change playoff groupings in Boy's and Girl's Track and Field from
enrollment based to groupings by competitive equity and geography.

Council Non-Action Date _____

Council Final Action Date _____

Fiscal Impact upon Member Schools and Southern Section: (Add Supporting Documents)

Potential savings in transportation and potential increase in
revenue (gate receipts) due to heightened interest in the prelim and
finals meets.

TOTAL P.002

As it stands right now (9/06) Track and Field is the only sport that is using enrollment based divisions. The Freeway League believes a change to a competitive equity and geography based placement would greatly enhance the sport. Most schools never come close to a divisional championship or even an individual champion. Track and Field really lends itself to competitive equity divisions because of the Master's meet format.

The top nine athletes will still advance from the division finals. We will still send the strongest field to the state meet from the Southern Section. Minimum marks and at large marks can remain in place for qualifying out of the league meets to the prelims. The only thing that will change is that more schools will arrive at the prelims and division finals with a realistic chance at competing for a championship.

This opportunity will give all of our student athletes a more positive and rewarding post season.
